

Scientific meeting

# Nordic Hematology Debate

Advances in the treatment of Multiple Myeloma, Mantle Cell Lymphoma, Waldenström Macroglobulinemia and Follicular Lymphoma

8–9 March 2018, Arlanda, Stockholm

A Nordic interactive experience exchange with international experts

This 1.5 day meeting will cover the latest advances in the treatment of Multiple Myeloma, Mantle Cell Lymphoma, Waldenström Macroglobulinemia and Follicular Lymphoma.

The meeting will consist of state of the art lectures on the latest therapeutic options and experience exchange through an interactively built program with workshops and mingle sessions. After each lecture there will be therapeutic area specific workshops to discuss current treatment practices, complex patient cases and recent clinical study results.

The meeting is targeted towards physicians within hematology and oncology with interest to learn more about Mantle Cell Lymphoma, Indolent Lymphomas and Multiple Myeloma.

After this meeting you will be updated on the current treatment practices of today and also be aware of the latest scientific and clinical advances made in each therapeutic area.

Register online, no later than 14 February 2018
