

INBJUDAN TILL BMS I-O WEBBFÖRELÄSNING

Treatment of head and neck cancer with PD-1 inhibitors – practical experiences and clinical evidence

DURING THIS WEBINAR Dr Sykes will use patient cases to present his experiences and outcomes with anti PD-1 treatment.

Dr Sykes sees between 250 and 300 new cases of head and neck cancer every year and is specialized in non-surgical treatment of head and neck cancer as well as melanoma. He has published very widely in the field of head and neck cancer and has led a number of clinical trials into new treatments.

HOPPAS VI SES PÅ NÄTET!

Med vänlig hälsning,

Alla vi på Bristol-Myers Squibb
som arbetar med onkologisk immunterapi
