Nordic Hematology Debate

Advances in treatment of Chronic Lymphocytic Leukemia, Waldenström Macroglobulinemia, Multiple Myeloma, Marginalzone Lymphoma and Mantle Cell Lymphoma

5–6 March, 2020, Clarion Hotel Sign, Stockholm, Sweden

This 1.5-day meeting will cover advances in the treatment of Chronic Lymphocytic Leukemia, Multiple Myeloma, Waldenström Macroglobulinemia, Marginalzone Lymphoma and Mantle Cell Lymphoma.

The meeting will consist of state-of-the-art lectures on the latest therapeutic options. After each lecture there will be therapeutic area specific interactive workshops to discuss current treatment practices, complex educational patient cases and recent clinical study results. There will also be a plenary session on infectious complications in haemato-oncology patients with special focus on patients treated with novel therapies.

The meeting is targeted towards physicians, both specialists and those during education in hematology and oncology with interest in above areas.

Register online, no later than 27 January 2020
